Experience

Lead 3D Artist / Animator

November 2014 - February 2018 (3 years 4 months)

Responsible for all art assets. Created all the main characters and animation. Designed clean and resource optimized animation rig that allowed seamless working between Blender and Unity game engine. Designed the character system that allowed switching of clothes, armor, accessories, weapons, rag-doll physics and dismemberment. Created one game level and heavily modified others. Optimized art assets, textures and draw calls. Created lighting on all game levels. Created majority of particle effects including environmental effects and blood splatter. Coached over 6 art trainees and edited their work to fit with other art assets. Tested the product, helped to fix bugs and to refine the game logic. Provided input on decisions made in production and game design.

3D Artist / Animator at Healthgamer

July 2014 - September 2014 (3 months)

3D game art, animation and promotion art.

3D Animator at Kainuun Etu Oy
